

PIPELINE EMERGENCIES

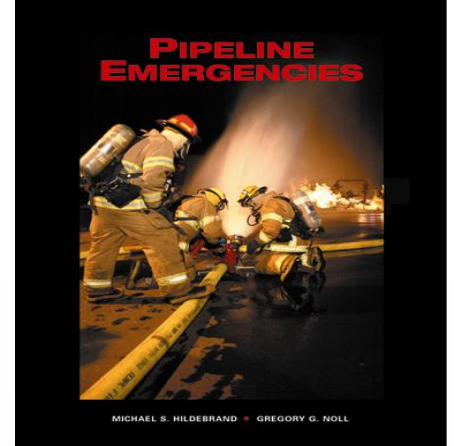

A Train-the-Trainer Program Coming to Virginia

From the National Association of State Fire Marshals

and the U.S. Department of Transportation's Office of Pipeline Safety in conjunction with the Virginia Hazardous Materials Conference and Expo

On October 19th, the Virginia Association of Hazardous Materials Response Specialists is hosting the popular Pipeline Emergencies Train-the-Trainer class. The session will be taught by Mike Callan. Mike Callan is the author of the training program for delivering the Pipeline Emergencies Textbook, by Mike Hildebrand and Greg Noll. This one-day train the train seminar is presented by the National Association of State Fire Marshals for the DOT Office of Pipeline Safety, in conjunction with the VA Hazardous Materials Conference. Whether you are a first responder, firefighter, police officer, technician, hazmat team member or any other emergency responder, you have to be knowledgeable to handle a pipeline emergency. In today's world the critical infrastructure is vital for our nation to survive. Recent events show us the importance of understanding pipelines in our response area.

This book and presentation presents a common sense approach to understanding and handling Pipeline Emergencies and The training program provides practical, scenario-based training for the first responder to successfully handle pipeline emergencies. The program consists of a textbook a companion instructor CD-ROM containing interactive PowerPoint programs, scenarios, exercises and printable tests. There is also a DVD movie provided with the training program.

About the Trainer - Mr. Callan a thirty-year veteran of the Fire Service and a former Captain with the Wallingford, Connecticut Fire Department. He is California's Hazardous Material Instructor of the Year in 2001. He is the author of Responding to Utility Emergencies. In 1989 at the Fire Department Instructors Conference in Cincinnati he was selected from 7000 municipal and private sector instructors, as the International Society of Fire Instructors' - George D. Post Instructor of the Year. He is co-author of Hazardous Materials Exposures - Emergency Response and Patient Care published by Brady and Prentice Hall. He is the lead instructor on the video training series by Emergency Resources Inc. - "Surviving the Hazardous Materials Incident". He was a member of the Propane Emergencies Training project sponsored by the propane Education Research Council. This program and textbook was delivered to every

fire department in the United States in 1999. He is director of his own business - Callan and Company. Mr. Callan conducts Safety Seminars and Chemical Response training around the country for Industrial and Municipal Haz-Mat Teams. He has keynoted the FDIC in Indianapolis, Cincinnati, and numerous conferences and seminars around the United States, Canada and in Europe and South East Asia.
